The Oil Boom and Our City

"The World boom in Oil is reflected in expansions under way in each of these industries in the City of East Chicago associated with this vast business.

Swamped with orders, the William Graver Tank Works, the Pipe Mills of Steel and Tube of America, and the General American Tank Car Shops cannot keep up with the demands of Oil fields here and abroad.

Further emphasizing this city's importance in the Oil are three refineries that front its wharves—Sinclair, Consolidated Oil and Standard Oil.

Twin City News Notes

The chief attraction about which centers all interest for Indiana Harbor folks is the stupendous bazaar under sponsor of the Ladies' Aid of the First M. E. church, commencing tomorrow at one o'clock in the afternoon and continuing throughout the evening until all articles are well disposed of. The supper service will begin at 5 and be kept up until late in the evening. There is an endless array of practical and beautiful gifts which will be offered for sale. Some of them have been placed on exhibit in the windows of the Matchless Floral store on Michigan avenue and represent a very small per cent of the selection the public will have the choice of in their purchases. There will be a demonstration of the Hoover Vacuum cleaner. There is to be but one booth, huge enough to admit the proper display of all goods and from where sales will be made direct to patrons. Mrs. B. D. L. Glazebrook, president of the church society is general chairman for the day and will be assisted by corps of willing workers who have lent their time and energies to the success of the bazaar. Chairman of the dining room is Mrs. Ross Myers, chairman of the kitchen arrangements is Mrs. Fred McQuillen. Mrs. Myers will also direct the decorations of the church social rooms and the scheme will be carried out in white and red pinneles to lend the Christmas spirit. The menu consists of roast beef, mashed potatoes, home-baked beans, home made noodles, cranberry sauce, pickles, home made cakes and coffee with ice cream. A booth with home made cakes and candies will be a side feature and expects to receive quite a neat sum additionally to the sale of larger articles. The public is invited to attend for early inspection and in the choice of the selections they desire to make. "Shop and home" is the slogan and at the same time lend your efforts and purse to a most worthy cause, maintenance of church worship in your community.

Miss Margaret Brissey is expected home from Detroit, Mich., for the holidays to spend them with her parents, Attorney and Mrs. J. W. Brissey, in Drummond street.

An aluminum shower was in progress at the home of Mrs. Sam Marple in South Magoon avenue last evening to honor Miss Bessie Klempner, soon to be come the bride of Milton Kottenberg. Whist was the diversion of the event and honors in the games went to Mrs. Julius Friedman, guest of honor. Mrs. Edward Michael, Mrs. D. L. Bernstein, Mrs. M. Rosenthal, Mrs. Moss Specter, and Mrs. Harry Miller. The guests participated in a delightfully prepared three course luncheon and the gifts in aluminum were many and varied and extremely practical. It was an enjoyable evening for bride-elect and her many friends present.

Mrs. Wyn Rodda, Mrs. George Jordan, Mrs. Winters were guests of Mrs. H. Stevens of Detroit street, Hammond and which luncheon and Free Hundred were the diversion.

One of a series of card parties was held Wednesday evening at St. Patrick's church by committee appointed from the Ladies' Sodality. This one was particularly well attended, the house in the evening went to Mrs. Frank Dickinson and Mrs. Evans in the ladies and in the gentlemen, Mr. W. O'Connor and Mr. M. L. Sheehan were the most fortunate. Another party will be given after the holiday season is over.

Mrs. Julius Friedman, who remains daily with her son, Cecil, a patient at the Mercy hospital in Gary had a tiny stranger, a daughter, born to her yesterday. Mother and babe are doing very

nically.

A very prettily appointed luncheon was given at the home of Mrs. Karl Jansson in 144th street, Wednesday afternoon to welcome home the daughter, Mrs. T. W. Brantlinger, very recently Miss Lillian Jansson and who has been away in the East sojourning. The table decorations were in pink and white and the guests comprised the Mesdames H. K. Groves, her mother, Hadda Johnston, E. N. Canine, T. E. Williams, Harry Ackroyd, C. C. Smith, John Steven, Guy Hubbard and Miss Irene Smith. Mrs. Brantlinger is being similarly entertained this evening by her sister, Mrs. Hubbard at a Christmas party.

Miss Ruth Petras entertained the O. S. club to a social evening last night at her home in South Barling avenue.

Targers will receive every individual in the Twin Cities tomorrow for the benefit of the Welfare Association and the general chairman of the day is asking for liberal support on the part of all young women who have promised to tag for this worthy cause. It will be only on the effort of every tagger that success can be attained and for one day tagging it mean many workers. There is no lay claim for honors in the ultimate gain of the receipts of tomorrow. The Association in the field means an individual help to every one who at some time needs the call of the nurse in the home. The infant stations at both East Chicago and Indiana Harbor have proven a boon to the locality and the instructive work to mothers in the intelligent care of their young children bear a like importance in the work maintained. Give cheerfully to this cause and rest assured that money could not better be expended. The headquarters at the First National bank in East Chicago will be open at 7:15 tomorrow morning where taggers can get their supplies and information will be appreciated in this one day drive.

Mr. and Mrs. J. J. Mulligan of Beacon street are soon to leave for Buffalo, N. Y., where Mr. Mulligan goes to take a position. Beacon street residents who have come to know the family as neighbors and friends regret very much their soon departure.

The women folks of the community those especially allied with the Congregational church are awaiting the date of Tuesday evening, Dec. 16th, when the Men's club will prepare and serve a supper to the public and at which no feminine hands are to assist. To the skeptical this feat almost seems impossible and the women are exchanging sly glances and are wondering just what the men will consist of. This is the first attempt whereas the men will preside over the culinary skill and absolutely alone and much consternation reigns as to who is really the chief chef. Tickets are fast being sold and women are heavy applicants as to order. The women of this church have always maintained an enviable record as expert cooks and now time, the date and the meal will tell its story with the men's equal popularity.

All meetings of the Woman's Guild of the Church of St. Alban's have been cancelled until after the Christmas holidays when a renewal in the activities will take place.

The Goodfellowship Club of St. Alban's church will meet this evening to transact business of the society and will then dance and hold social features for the rest of the evening. All are to be present.

Exquisite Tones that Thrill the Soul

PHONOGRAPHIC tone reproduction reaches its climax when presented by The Brunswick. Play any make record—vocal or instrumental—and the utmost in tone quality is achieved.

Such triumphant success is due to the Brunswick Method of Reproduction. This is accomplished by two exclusive features. Both are scientific yet simple. They are pictured and explained briefly, below.

The Brunswick Phonograph has built into it the best ingenuity known to the

The **Brunswick**

phonograph world. It embodies every worthwhile present-day feature.

It has discarded every old fashioned crudity. Hitherto lost elements in phonographic sound interpretation are now restored.

The *Ultrona* plays all records, truer, finer, sweeter. It is not a makeshift con-

trivance but involves a genuine principle of sound.

A slight turn of the hand presents the right needle, diaphragm and weight for playing any record.

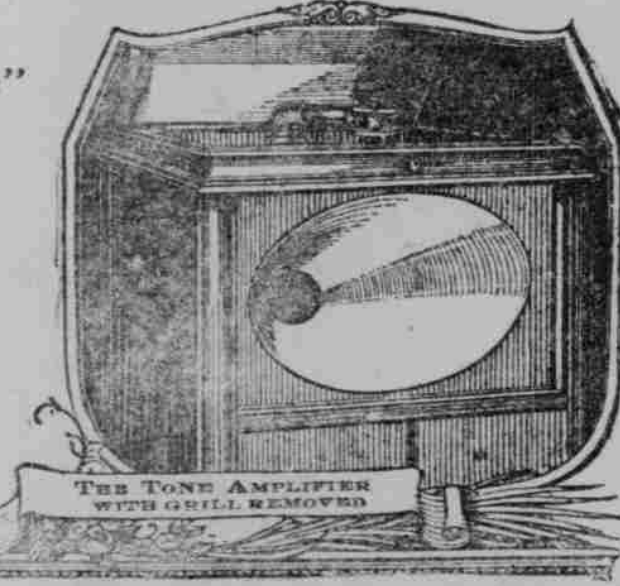

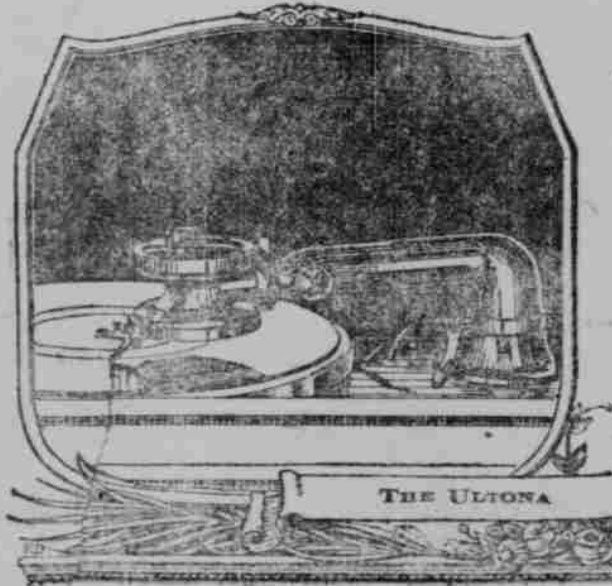

The *Tone Amplifier* is an oval shaped vibrant tone chamber.

Like the sounding board of a fine piano or violin, it is made entirely of wood and free from metal. Thus it gives the requisite tonal volume and eliminates all harsh, thin, metallic sounds. It meets all advanced acoustical and musical laws,

Come in and we will gladly give you a free copy of
"What to look for in buying a phonograph"

You will want this interesting and instructive booklet before you buy because it is authentic. It was written by Henry Purmort Eames, LL.B., Concert Pianist and Lecturer, Director Pianoforte Dept., Cosmopolitan School of Music, Chicago.
